

Dear FDA,

I am writing to express my concern over genetically engineered (GE) food, to ask policies be changed, and to support all the CPI, specifically:

- All GE foods should be labeled so and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

Petition

Little Marais, MN 55614

Additional Personal Comments:

You are a government agency working for the safety of the people. Have you sold out to the chemical companies?
